# HOSE REELS: 506 SERIES 50' Max hose capacity

Roller arm in tank/wall mount position

# 506 Series: Single Arm Aluminum Hose Reel

Aluminum base and arms with composite spool hose reel. Reel can handle up to 50' x 1/2" hose.

### Aluminum base and guide arm

Provide the rigidity to withstand the most demanding applications while offering a reduced weight, allowing for easy installation

### Fatigue resistant steel spring

Offers years of durable performance and even load when pulling and recoiling

### Fully ported shaft and swivel

For improved flow

#### Spool mounted on two permanently lubricated and sealed ball bearings

To reduce torque load on spring for smooth retraction and longer life

### Large latching area for easier operation

Six roller guide outlet Prevents hose pinching and reduces friction

## Hose guide arm can be placed in different positions

To accommodate any reel mounting options; floor, wall, ceiling, or tank.

### Hose reels with hose include 30" inlet hose and ball stop

#### Hose reels are delivered in ceiling mount position

For reels delivered with arm in side mount position, add the suffix SM to the hose reel part number. i.e. 506 101SM
